

The Patient and The Prescription

When your physician writes a prescription he has in mind the welfare of his patient. Definite results are to be accomplished by the drugs which he prescribes. The prescription which he writes and delivers to you becomes your property, and it is your privilege and duty to see that the physician's efforts are supplemented by those of a druggist who will exercise every care in the compounding of the medicine.

Have your prescription filled at our store where pure ingredients and expert compounding will insure just the results anticipated by your physician.

The superior prescription service which we provide costs you nothing extra.

LET US FILL YOUR NEXT PRESCRIPTION.
